

## **ASLAN BREWING COMPANY**

1330 N. Forest, Bellingham WA [www.aslanbrewing.com](http://www.aslanbrewing.com)

Aslan Brewing Company is a local microbrewery committed to pushing boundaries of craft beer while preserving the purity of brewing tradition. We only use the finest organic ingredients the Pacific Northwest has to offer, creating some of the cleanest and most unique brews in the market today. Truly dank brew; Pride of the Organic Northwest.

**GINGER RYE:** Light in body and mouthfeel but big in flavor. This beer is brewed with fresh ginger, limes and honey to produce a truly unique beer experience. Generous portions of Rye malt lend a very slight spicy character that compliments the ginger and balances the sweetness of the honey. 4.5% ABV

**ASLAN IPA :** This beer is hop bursted to deliver a massive punch of flavor. The goal was to showcase the flavor of hops more than the standard IPA. We feel you will agree when we say, the goal was accomplished. So sit back and enjoy a new twist on a Northwest standard!
