**ROASTED CHUCKANUTS BRITISH BITTER COLLABORATION:** When Chuckanut owners Mari & Will

were brewing in Istanbul, Turkey they met Mark owner/brewmaster from Rebellion Brewery in Marlow, England. The Kem-pers invited Rebellion to come brew in Bellingham at Chuckanut. Mark couldn't make it so he sent his head brewer Ed for the trip. Ed, and head brewer Michael and brewmaster Will decided to brew together a beer Rebellion brews called Roasted Nuts. This complex, intense and distinctive bitter is made with American Cascade hops and East Kent Goldings British hops. All the brewers thought this would be a great American British collaboration so they brewed it together at Chuckanut. Having been made at Chuckanut we decided to call it "Roasted " instead of its English "Roasted Nuts" name. Chuckanut's Special Bitter has a rich character created from a flavorsome blend of malts, accented by a hop character and earthy hop flavor. Our special Bitter is deep ruby in color, Low gravity and crisp bitterness makes this a truly quaffable beer! OG 11.5 Plato ABV 4.6% IBU's 30
