

## **SEATTLE CIDER**

**4700 Ohio Av S, Seattle, WA [www.seattlecidercompany.com](http://www.seattlecidercompany.com)**

Seattle Cider Company is the city's first cidery since prohibition, bringing true craft cider back to Seattle. Bridging the gap between wine and beer with flavorful, small-batched cider, Seattle Cider's initial offerings - Dry and Semi-Sweet break the mold of overly sweet cider bringing the natural flavors of Washington apples to the forefront. The Woods tasting room - located in Seattle's SoDo neighborhood at 4700 Ohio Ave S - is

where visitors can sample and taste our unique, handcrafted ciders while seeing and sitting right where it all happens.

**SEMI-SWEET CIDER:** A light, crisp cider with just a touch of sweetness. Honey in color with notes of bergamot orange, lemon and apple, this refreshing cider reveals hints of citrus and cinnamon on the palate.

**GIN BOTANICAL CIDER:** Fermented with spent gin botanicals from Batch 206 Distillery, our Gin Botanical is a semi-dry cider showcasing lemon, orange rind, juniper, cucumber and verbena. Like the spirit that inspired it, this cider is complex, clean, aromatic and refreshing.
